#### INTRODUCTORY.

At the beginning of another year, with New Year's wishes for advancing prosperity to our patrons and the public generally, we present the Cambridge City Directory for 1895, making the 44th of the series. The changing of Front street, a portion of Main street, Harvard street, Harvard row, and the entire length of North avenue to Massachusetts avenue, calling for the renumbering of the same, has caused a great many changes in this issue. We have endeavored to obtain the correct numbers, by the use of plans furnished by the City Engineer, yet we scarcely dare expect but what errors must have been made. We have worked in all directions to make the directory as accurate and reliable as is possible for a work of this kind, and extend our thanks to all who have aided us in manifold ways. It is this united work, which will bring a directory to that perfect standard toward which we are aiming.

Our sincere thanks are extended to those energetic business men who have given us their aid, and trust we have merited a continuance of their favor in future issues.

Respectfully,

W. A. GREENOUGH & CO. Compilers, Printers and Publishers.

### PACH'S STUDIO.

The talent for seizing at once upon the best points of a sitter is

- essential to the success of a photographer no less than to
- ⇒ that of a portrait-painter, and the lack of it accounts for
- the failures of pictures, which, though they may have
- all mechanical advantages, want taste of arrangement.

THE MANAGER OF

### Pach's: Photograph: Studio,

IN CAMBRIDGE,

MR. WILLIAM TUPPER, has had an experience in the practice of

- his art such as few have been privileged to obtain. For a period of sixteen years he was brought in frequent
- contact with HUNT, FULLER, PORTER, ROUSE, MUNZIG, and other BOSTON ARTISTS, and having
- a natural taste for art, became thoroughly imbued with the ideas of these painters. Their influence has naturally
- done much for the excellence of his work, especially in regard to the lighting of the picture and the posing of
- subjects, so as to give that view which combines the best aspect of the face with its most characteristic expression

5-5 Signal for no School 12 12 Military Call

#### . INSTRUCTIONS TO KEY

HOLDERS.

Alarms to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go. Each box contains a small bell which, if heard before you pull, indicates that an alarm has been previously given, and by listening at the box, you will learn the number of the box from which the alarm was given, but in no case will you pull the kook while the alarm is striking. After giving the a arm, remain at the box, so as to direct the firemen to the fire. Be sore that you lock the box before leaving it.

Citizens are requested to inform themselves where keys to the signal boxes are kept, signs suitably inscribed being placed over each box giving the requisite information.

#### INSTRUCTIONS TO FIREMEN.

First alarm will be given by striking three or more rounds.

Second alarm will be given by repeating the first,

Third alarm will be given by striking three blows twice on the gongs and bells.

General alarm will be given by striking three blows three times.

In cases where hook and ladder companies only are wanted, the call will be given by striking five blows.

Companies not required to respond to first or second alarms will be notified of the extinguishment of the fire by two blows on the gongs,

that their services will not be needed and that orders have been given to "make up." Should an alarm be given from any box while a portion of the department is engaged at a fire, the apparatus not in service will respond.

# SAFE DEPOSIT BOXES

Will consult their own interest by examining the vaults and accommodations which are offered by the

# SECURITY SAFE DEPOSIT COMPANY,

Equitable Building, Boston.

New Vaults, Coupon Rooms, Reading and Toilet Rooms all on the Street Level.

This company has, in order to afford greater security to its box-holders, demolished their old vault and substituted a new vault more than twice as large as the old one, situated on a level with the street, combining in its construction every improvement which modern science and inventive genius have been able to devise for the protection of treasure.

Extensive coupon rooms, a reading room and toilet rooms are also on the street level. A luxuriously furnished department has been prepared for the use of ladies who rent safe deposit boxes.
